FocalSpot, Inc. Expands Office and Manufacturing Facilities to Meet the Needs of Growing Clientele

San Diego, California (January 11, 2006) – FocalSpot, Inc (www.focalspot.com), a provider of high-quality affordable BGA/SMT inspection and rework solutions to the SMT electronic manufacturers industry, announced today the expansion of their corporate office and manufacturing facilities. The driving force behind this expansion was due to broad global acceptance of FocalSpot's innovative inspection and rework solutions.

"As a result of our ongoing success in providing low-cost, high-performance x-ray inspection and rework solutions to electronics manufacturers, Focalspot, Inc. is doubling its size to meet growing production demands," said Mr. Fred Schlieper, President and CEO of FocalSpot, Inc. "As we expand into new geographic markets, these facilities will provide us greater production capacity and the infrastructure for ongoing product developments — some of which will be announced at APEX 2006, continued Mr. Schlieper."

Facility construction began in early December 2005 and is scheduled for completion in mid-January 2006. FocalSpot, Inc. is located in the Scripps Ranch area of San Diego County, California. Facilities will include: General administrative business operations, demonstration and training rooms, manufacturing, assembly, equipment/parts warehousing, and a spacious applications/prototype lab.

As a leader in affordable BGA/SMT inspection and rework solutions, FocalSpot's management team has an extensive core background spanning more than 50 years of experience in x-ray and rework systems sales, marketing and customer support. Our team of certified technical support specialists and experienced applications engineers are made up of industry veterans from Hewlett-Packard, GenRad, Teradyne, Nicolet Imaging Systems (NIS) and Sierra Research & Technology (SRT). FocalSpot also continues to be a source for parts; service and refurbished NIS (x-ray) legacy systems.

About FocalSpot, Inc.

Focalspot, Inc. designs, manufactures and markets high-quality affordable x-ray inspection systems worldwide and distributes DEN-ON lead-free PCB rework solutions in North/South America, Canada and Mexico. FocalSpot also sells and supports pre-owned Nicolet (x-ray) systems; providing ongoing service, parts, installation and training. FocalSpot's' team of certified technical support specialists and experienced applications engineers deliver outstanding service worldwide.
